

IFLA NEWS

The IFLA Executive Committee are delighted to announce renewed cooperation with the [Nava Polman-Gerson Foundation](#), long-time patron of the Student Charette at the IFLA World Congress. The Foundation will continue to support the Charette throughout 2017-2019 providing students of landscape architecture with an invaluable opportunity to create new designs in situ with scientific and technical guidance from an expert array of tutors. Watch this space for 2017's Charette brief!

The Charette winners will be announced at the IFLA World Congress together with the 2017 Sir Geoffrey Jellicoe Award (SGJA) recipient; nominations for the SGJA are open until 15 January 2017. Click [here](#) for further information.

Plans for the Congress itself are progressing well with the first draft of the programme near completion. The Scientific Committee reports an excellent return of paper proposals but if you missed the first call, don't worry, a second is due in the new year. IFLA Corporate Members can benefit from a discount on attending the Congress; to learn more, visit the Corporate Membership section of the IFLA website [here](#).

If you wish to know more about IFLA's ongoing activities, our [Action Plan](#) is available online. Bon weekend à tous!

From our members: The [ILAM](#) annual awards, the Malaysia Landscape Architecture Awards (MLAA) are now open for submissions. The awards honour the best in landscape architecture from various aspects of the industry. The winners will be announced at the ILAM's MLAA Awards Gala Night in April 2017. You can find out more on the IFLA Website [here](#).
