IFLA NEWS

The IFLA World Congress is nearly upon us. This year it will form part of the World Design Summit (WDS) and so never before will Landscape Architecture have such a platform demonstrate its capacity to tackle global issues and transform the future.

The 2017 congress is organised by the CSLA-AAPQ. They have announced the programme of events which will be held alongside the WDS. Activities include the IFLA student charrette, IFLA World Council, IFLA Gala associations, CSLA Awards Gala and Guided Tours.

Tours include the Montreal Botanic gardens and the Saint-Michel Environmental Complex, a former quarry and landfill site, this 192-hectare site now houses environmental companies, international caliber cultural and sports institutions and a unique recreational green space in full transformation, the Frédéric-Back Park.

The IFLA Student design charrette aims to demonstrate the achievement of the highest standards in landscape architecture education worldwide and in 2017, in its 54th year will focus on design for social justice.

For more information about these and all of the programme please visit the [CSLA website](#).

Hopefully be seeing you in Montreal!
