

## IFLA NEWS 85

IFLA announces joyfully that WE-EF has become our Global Partner. Through the financial support of our partners, it is possible for IFLA to develop the projects focused on raising the profession worldwide and widening the services provided to our members.

As a partner, WE-EF will be a key supporter of the landscape architecture profession, assessing in their area of knowledge, sharing experiences, creating connections and building strong relationships within professionals.

It is important for IFLA to create a network worldwide with the support of our partners and share technical data and links, in the benefit of landscape architects.

We welcome WE-EF to the IFLA family!

NOVEMBER 2018

# 02

This IFLA News comes from Monica Pallares, Chair IFLA Committee on Communications and External Relations
