ASLA Statement on the Green New Deal

IFLA is pleased to share, an important communication from IFLA Member - **ASLA, the American Society of Landscape Architects.**

There is significant Overlap Seen Between ASLA's Report, Smart Policies for a Changing Climate, and Many Provisions of the Green New Deal Resolution.

A wide-ranging proposal for a Green New Deal (GND) was introduced on February 7 in the House of Representatives in the form of a resolution sponsored by Rep. Alexandria Ocasio-Cortez (N.Y.), with a companion resolution introduced in the Senate by Sen. Edward Markey (Mass.).

Although the current GND resolution is largely aspirational and includes few specific policies, it contains a commitment to core principles of urgent transformational change that are fully compatible with ASLA's positions, and mirror the recommendations the Society already put forward in our Blue Ribbon Panel report, Smart Policies for a Changing Climate.

Read the complete statement.
